@PercyP #4774	and a start and a start
@joebordes @bpabiszczak It would be brilliant if you guys did col brilliant components that would be excellent in yetiforce :) fingers c	-
It probably impossible, because we both think our own product is better that coreBOS is better because it's not :D. However, there are many worth implementing. We can even write a migrating script from coreBO the cooperation.	great things in coreBOS that would be Projects
Joe, go ahead and let me know what you think :D	Milestone No milestone
